**Computer Information Systems**

**Association for Computing Machinery (ACM):** Delivers resources that advance computing as a science and a profession. ACM provides the computing field's premier Digital Library and serves its members and the computing profession with the leading-edge publications, conferences and career resources.

**The Association of Information Technology Professionals (AITP):** Offers opportunities for Information Technology (IT) leadership and education through partnerships with industry, government and academia.

**The Data Management Association International (DAMA):** An international not-for-profit association of data resource management professionals with chapters and Members-At-Large around the world. Data Resource Management is the development and execution of architectures, policies, practices and procedures that properly manage the full data lifecycle needs of an enterprise.

**Information Systems Audit and Control Association (ISACA):** A leading information technology organization representing more than 65,000 individual members in more than 140 countries. Membership is comprised of all levels of IT professionals—executives, management and practitioners—all of whom are dedicated to the promotion of advanced IT governance, control and assurance practices.

**The Information Systems Security Association (ISSA)®:** A not-for-profit, international organization of information security professionals and practitioners. It provides educational forums, publications and peer interaction opportunities that enhance the knowledge, skill and professional growth of its members.
