Financial Planning Concentration

The Department of Finance and Real Estate delivers world class education in Financial Planning. The program is a Certified Financial Planner Board of Standards registered program. Successful graduates are eligible to sit for the CFP® Exam upon completion.*

What Do Professionals in Financial Planning Do?
Financial planners assist individuals and families with decisions regarding their personal finances. Comprehensive personal financial planning is the process of formulating, implementing, and monitoring multi-functional decisions that enable an individual or family to achieve their financial goals. Personal financial planning identifies strengths and weaknesses of a financial situation and utilizes this information to provide a framework for decision making from a cost-benefit perspective. Financial planners provide advice or guidance on investments, insurance, taxes, retirement and estate planning.

Potential Careers in Financial Planning
Careers in finance fall broadly into the four categories listed below. There is considerable overlap among the various functional responsibilities, and many planning professionals practice in several areas.

**Estate Planning**
